# NCA Membership Frequently Asked Questions

## Who are NCA Members?

Membership is open to everyone including professionals working as family home child care providers, child care center and afterschool program staff or those at Tribal Nations, State Agencies, anti-hunger organizations, Head Start, emergency shelters, schools, food banks, associations, universities, Research and Referral agencies, commercial and sponsoring organizations.

## What's the best membership for me?

The \$75 NCA Membership is a great choice for anyone who wants to access to NCA Membership benefits.

For CACFP Sponsoring Organizations who would like to have one listing in Find A Sponsor at [cacfp.org](http://cacfp.org), receive a discount on bulk printed materials, have access to program referrals, Board of Directors leadership opportunities, voting rights, and access to a networking forum, we recommend the \$150 Sponsoring Organization membership which includes one NCA Membership. If you have additional staff who would like access to membership benefits, you can add people from your organization at \$75 each.

An Organization Membership may be purchased at the agency level that allows up to five people to have access to NCA Membership.

We also offer a SFSP Sponsoring Organization membership for businesses who would like to have one listing in the Find A Food Program Sponsor directory at [cacfp.org](http://cacfp.org). This also includes one NCA Membership.

## What is a SFSP Sponsoring Organization?

Organizations that assume the SFSP administrative and financial responsibility for the summer food service program under an agreement with their state agency are considered SFSP Sponsoring Organizations. These may be organizations who operate the Summer Food Service Program directly (self-sponsor) or those who work with a number of providers which operate the SFSP across summer food service sites.

## If I have a CACFP Sponsoring Organization membership and we also sponsor the SFSP, do I need two memberships?

No. CACFP Sponsoring Organization members who also sponsor the SFSP will automatically be listed in the Find a Food Program Sponsor category for SFSP, if indicated on your membership application.

## How do I get access to Member Forums?

All NCA Members have access to member forums. Additionally, members who work for Sponsoring Organizations will have access to Sponsor only networking groups (replacing Sponsorlink).

## What is a CACFP Sponsoring Organization?

Organizations that assume the CACFP administrative and financial responsibility for child or adult care programs under an agreement with their state agency are considered CACFP Sponsoring Organizations. These may be organizations who work with a number of providers including family home child care, child care centers, Head Start, or at-risk afterschool sites. They may also be an independent child care center which serves as both sponsor and provider—acting as their own sponsor.

## What if I have a Sponsoring Organization that serves multiple states?

Sponsoring Organizations may hold multiple memberships. We recommend one Sponsoring Organization membership for each state you serve. This will make it possible for the Sponsoring Organization to have a listing on the Find A Sponsor directory for each state and assign a primary member for each state who will hold the NCA Membership. Sponsoring Organization benefits such as leadership opportunities and voting rights extend to each state membership.

## Can I share my login with my team?

Each person will need their own member login to register for member materials, access educational materials or qualify for conference discounts.

## Can my membership be transferred?

Memberships are non-transferable except in the case where the primary member of a Sponsoring Organization retires or leaves employment.

## Can I change my membership status at any time?

Yes, an active NCA Member who works for a Sponsoring Organization may upgrade their membership for additional sponsoring organization benefits.

## Can my membership be renewed automatically?

Yes.
